FIT3077 Software engineering: Architecture and design

Work Breakdown Structure (Sprint 1)

| Project: | Nine Men's Morris | | | | Team Name: | The Brewing Java |

Name	Date	Assigned Task	Status	Time Spent (hrs)	Summary of Work Done
Kennedy Tan	30/03/2023	Design and draw domain model	Completed	1	Finish drafting first version of domain model.
Soh Meng Jienq	31/03/2023	Modify and finalise domain model	Completed	1	We come together and discuss on the domain model. We added more domains into the model. Finish designing domain model.
Fong Zhiwei	31/03/2023	Modify and finalise domain model	Completed	2	We come together and discuss on the domain model. We added more domains into the model. Finish designing domain model.
Kennedy Tan	31/03/2023	Modify and finalise domain model	Completed	2	We come together and discuss on the domain model. We added more domains into the model. Finish designing domain model.
Soh Meng Jienq	01/04/2023	Drawing prototypes	Completed	6	I design all the user interface, including tutorial and game mode.
Kennedy Tan	01/04/2023	Rationale for chosen domain model	Completed	2	I write the rationale of the domain model to explain all the relationship in the model, and the reason of choosing them using OOP.
Fong Zhiwei	01/04/2023	Rationale for chosen domain model	Completed	3	I write the rationale of the domain model to explain all the relationship in the model, and the reason of choosing them using OOP.
Kennedy Tan	01/04/2023	Creates some user stories for the project based on the requirement	Completed	2	I create the user stories from stakeholders perspective to have more understandings of what they want, and break down their requirements.
Fong Zhiwei	01/04/2023	Creates some user stories for the project based on the requirement	Completed	2	I create the user stories from stakeholders perspective to have more understandings of what they want, and break down their requirements.
Soh Meng Jienq	01/04/2023	Creates some user stories for the project based on the requirement	Completed	2	I create the user stories from stakeholders perspective to have more understandings of what they want, and break down their requirements.
Kennedy Tan	01/04/2023	Introduction	Completed	1	I create an overview of the report and highlight the goal of our team.
Fong Zhiwei	01/04/2023	Introduction	Completed	1	I create an overview of the report and highlight the goal of our team.
Kennedy Tan	01/04/2023	Tech Stack and justification	Completed	2	I compare which coding languages are suitable for the project, and justify the reasons.

Fong Zhiwei	02/04/2023	Adding discarded alternatives to design rationale	Completed	1	I added some design rationales that were previously discarded and the reason why we modified them.
Kennedy Tan	02/04/2023	Modify and finalise Sprint 1 document	Completed	1	I check the errors of Sprint 1, and ensure the report is aligned.
Fong Zhiwei	02/04/2023	Modify and finalise Sprint 1 document	Completed	1	I check the errors of Sprint 1, and ensure the report is aligned.
Soh Meng Jienq	02/04/2023	Modify and finalise Sprint 1 document	Completed	1	I check the errors of Sprint 1, and ensure the report is aligned.
